NURSING CONTINUING EDUCATION

SPRING 2021 SCHEDULE

INTERPRETATION OF LABORATORY DIAGNOSTIC EXAMINATIONS (0.5 credit - \$42.50 per half-credit, No Textbook)

NCE 203 | Class #10734 | Online Class | Mar. 22 to Apr. 26

Utilization of laboratory diagnostic examination results for evaluation of patient conditions. Normal results for selected body fluids. Abnormal results related to pathophysiological conditions for adults. Incorporation of results of examinations to assess, modify and evaluate therapy for patients with specific conditions. **Prerequisites:** Registered nurse or Licensed Practical Nurse, Nursing students, or permission of instructor.

BASIC ELECTROCARDIOGRAM INTERPRETATION (1 credit - \$85 per credit, No Textbook)

NCE 214CA | Class #36700 | Online Class | Jan. 25 to Feb. 5 | NCE 214CA | Class #10733 | Online Class | Mar. 1 to Mar. 12

Focuses on common cardiac arrhythmias. Includes abnormalities in regard to the major and minor effects on a patient's health, specific drug therapy and nursing implications. **Prerequisites:** Permission of Instructor.

IV THERAPY & MEDICATION SKILLS (2.5 credits - \$85 per credit plus lab fee & Textbook)

NCE 223 | Class #10738 | Hybrid CH2153 | Mar. 3 to May 12 | 5:30 to 9 p.m.

Lab Section #10739 | Face to Face Lab every Wednesday evening beginning March 3, 2021

Terminology and anatomy related to intravenous therapy. Drug response factors, dosage, calculations, intravenous site dressing change, intravenous administration equipment, and initiating intravenous therapy. Documentation and procedures for laboratory check lists. Meets state nursing board requirements for initiating intravenous therapy and administering intravenous medications. **Prerequisites:** Current license as Practical Nurse or permission of Instructor.

CRITICAL CARE NURSING (4 credits - \$85 per credit plus lab fee, No Textbook)

NCE 278 | Class #36704 | Hybrid | Feb. 1 to Mar. 12 | NCE 278 | Class #36706 | Hybrid | Apr. 19 to May 21

Foundations in critical care for nurses who are interested in entering the critical care environment or nurses who seek to increase their expertise in critical care. Includes basic anatomy, physiology, and pharmacology. Disease management for the following systems: cardiac, respiratory, neuroscience, gastrointestinal, renal, endocrine and hematology, hemodynamics and ventilator management. The lab includes case studies, simulation, and lab practice. **Prerequisites:** Current license as a Registered Nurse or recent graduate of an accredited nursing program or permission of Instructor and/or employer. Licensed Practical Nurses will be allowed to take the course by request of their employer and/or with permission of the Instructor.
