Program ID: 108348

Dear Dean Meneses,

We have received the one-year extension request regarding the accreditation of the automobile Honda PACT program at GateWay Community College. Based on the program continuing to meet the minimum criteria outlined, including holding advisory meetings, maintaining update training hours, and holding current ASE certifications we have approved a one-year extension to be added to the current expiration date. The new expiration date is now **6/1/2022**. Please keep in mind the accreditation renewal process should be completed by the new expiration date to take full advantage of the extension. We are standing by ready to assist the program in any way possible throughout the accreditation renewal process. Please contact us with any questions or concerns as we work together getting back on the road.

Best wishes,

Brittany Miller
