12	Attend a Program Orientation Session A week before the start of the semester.	Room location varies each semester.	(602) 286-8613

Career Description

Prepare for one of the hottest jobs around. Learn to diagnose, repair, and perform maintenance on automobiles and light trucks. As an Automotive Technician, you will need the skills to accurately diagnose and demonstrate quality workmanship. If you have an interest in a particular area, larger repair shops often employ specialized mechanics. Areas of specialization include air conditioning, drivability/emissions, steering & suspension, electrical, transmission and heavy-line mechanics. You can find employment in car dealerships, independent garages, private companies, government agencies, or you can choose self-employment.

How to Get Started

GateWay's Automotive Technology program partners with two auto makers to produce highly trained and qualified technicians through Toyota's Toyota Technical Education Network (T-TEN) and Honda's Professional Automotive Career Training (PACT). GateWay offers five certificates and one degree program. Each of these certificates signifies to a potential or present employer that you are qualified for an entry-level position as a general or specialized mechanic. Our Associate in Applied Science Degree may include paid work experience at a local dealership or independent repair facility.

Employment Outlook

In Arizona, job openings for Automotive Technicians are expected to increase 10% over 10 years, creating approximately 840 jobs annually. Please visit ONetOnline.org for up to date salary and job opening information.

Program Costs

Tuition and fees are set by the Maricopa Community College District Governing Board. Tuition is based on the 2018 -2019 tuition rate of \$85 per credit hour (for in-county students). Tuition and fees are subject to change. Additional fees may apply. Financial Aid and Child Care are available to those who qualify.

Accreditation

GateWay Community College's Automotive Technology programs are accredited by the ASE Education Foundation.

GateWay Community College is a Maricopa Community College, accredited by the Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools (30 North LaSalle Street, Suite 2400, Chicago, IL. 60602-2504. Phone (800) 621-7440)

Toyota • Scion • Lexus TECHNICIAN DEVELOPMENT

Toyota T-TEN Internship Information & Requirements

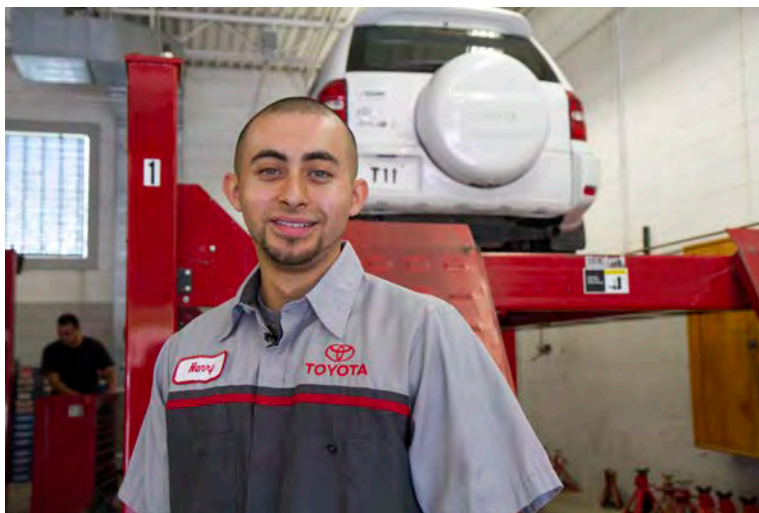

The Toyota Technical Education Network (T-Ten) is a two-year automotive program designed to upgrade the technical competency and professional level of the incoming dealership technician. The curriculum is designed by Toyota and GateWay Community College (GWCC) and leads to an Associate of Applied Science Degree in Automotive Service Technology or certificate. The program involves not only attending classroom lecture and laboratory on Toyota products at GWCC, but also requires the student to work at a Toyota dealership.

The total program lasts two years with approximately 32 weeks spent at GateWay Community College and approximately 32-44 weeks at a Toyota dealership. Each semester consists of rotating 8 weeks class at GateWay (8:00 am - 3:00 pm) and 8 weeks paid work experience opportunities at a Toyota Dealer.

Since considerable time is spent at the dealership, it is a requirement of the program for the student to have a sponsoring Toyota dealer. The student will receive assistance in location and identification of participating Toyota dealerships. The main responsibility of the dealership is to provide training related employment for the student during his/her cooperative work experience periods.

Program Requirements

- Completed Application (back of information packet)
- Valid Arizona Driver's License (with no suspensions)
- Three-Year DMV Driving Record (Maximum 3-Point Violation)
- Enrollment in the Associates of Applied Science or Certificate of Completion in Automotive Technology at GateWay Community College
- Interview with GWC Toyota Program Director and chosen Dealer
- Additional dealer requirements – drug test, background check, Minimum 18 years of age

Honda PACT Internship Information & Requirements

At PACT schools like GateWay, students are taught by ASE certified instructors who are also Honda certified. Each school is equipped with the special tools and equipment required in every dealer, as well as the training material found in the Training Centers. The curriculum conforms to NATEF's stringent guidelines as well as meets the needs of the local dealerships and community.

Students in the PACT programs have the opportunity to work at local dealerships to gain real world experience. Students will also get to work with the specialized tools to supplement their own tool set, as well as the opportunity to earn wages while going to school.

Students that make the commitment to join the Honda team secure their future in the automotive industry and must meet the performance standards set up by the dealership while attending school as a full-time student. Students will also need to maintain satisfactory grades and need to have a basic automotive tool set to work from to participate in the program. Each graduating student is recognized by American Honda for their commitment as a PACT student. Honda PACT certification is recognized at Honda & Acura dealers nationwide. *Please note, classes in the first year are in the morning (7:30 am - 12:15 pm), second year in the afternoon (12:45 pm — 5:15 pm).*

Program Requirements

- Completed Application (back of information packet)
- Valid Arizona Driver's License (with no suspensions)
- Three-Year DMV Driving Record (Maximum 3-Point Violation)
- Enrollment in the Associates of Applied Science or Certificate of Completion in Automotive Technology at GateWay Community College
- Interview with GWC Honda Program Director and chosen Dealer
- Additional dealer requirements – drug test, background check, Minimum 18 years of age

Automotive Technology Degree and Certificate Cost Estimates

Program	Tuition	Course Fees	Total
Associate of Science in Automotive Technology	\$6,035	\$520	\$6,555
Certificate of Completion in Automotive Technology	\$4,335	\$520	\$4,855
Certificate of Completion in Air Conditioning and Electrical Accessories	\$1,105	\$120	\$1,225
Certificate of Completion in Automotive Suspension, Steering and Brakes	\$1,020	\$120	\$1,140
Certificate of Completion in Engine Performance and Diagnosis	\$1,275	\$160	\$1,435
Certificate of Completion in Automotive Drive Trains	\$935	\$120	\$1,055

Please note that these are only estimates and do not include books. These estimates may change based on increases to tuition, course fees and book costs. Estimates are based on the 2018 - 2019 tuition rates for in-county students. Additional fees may apply.
