## Healthcare Regulatory Compliance

Dear Prospective Student:

This is an exciting time to be working in the health services field regardless of whether you are working in an office setting, hospital, physician's office or specialty facility. If you have current responsibility, or would like to move into a position that is responsible for the oversight and management of healthcare services you know that federal and state government regulations are expanding at a staggering rate. Healthcare monitoring agencies are enforcing laws relating to fraud, overutilization of medical services, protected health information breeches and criminal investigations.

The Healthcare Regulatory Compliance Program (HRC) will provide education in the knowledge, behaviors and skills necessary to address the rapidly changing healthcare federal compliance regulations. For your convenience, all classes are **online**. Classes are four, eight, or twelve weeks long depending on the number of credits.

Upon completing this 16.0 credit **online** program, you will earn a Certificate of Completion in Healthcare Regulatory Compliance. It is hoped that this will be your first step in earning credentials in healthcare compliance and preparing yourself to be successful on the Certified in Healthcare Compliance Exam (CHC) by the Health Care Compliance Association (HCCA).

For students wishing to obtain an Associate in Applied Science (AAS) degree, concurrent enrollment in the Health Services Management Program (HSM) is a pathway to that credential as well. The HRC courses are embedded in the Health Services Management AAS Degree Program.

Please read the information contained in this application packet and proceed with your application if desired. If you have any additional questions, please email Ahmad Pardazi, Program Director, at [ahmad.pardazi@gatewaycc.edu](mailto:ahmad.pardazi@gatewaycc.edu)
