

Student Civic Engagement (SCE) Activity Form

Each student will complete an SCE activity form for their Student Civic Engagement (SCE) project. The form must be approved by the instructor and the SCE coordinator before service begins. If you plan to serve at multiple agencies, the activity form should include information on each site.

1. What agency or agency have you identified for your Student Civic Engagement activity?
2. Describe the agency, including the type of service(s) offered and who or what is being served.
3. What service do you plan to provide there?
4. How does that service relate to the assignment?
