

# Power Math Camp Free Canvas Course

**Power Math Camp Canvas Course is a free and easy way to review your essential math skills.** You can practice at your own convenience. Any time. Any place. Any device. This can help as you move between math courses or as you prepare for the math placement test, though it won't replace a math course.

**Self-enroll with your MEID here:** <https://learn.maricopa.edu/enroll/CTBA3N>

**Self-enroll without an MEID here:** <https://canvas.instructure.com/enroll/F3YN9R>

Power Math Camp covers a wide variety of topics. You can move through the topics sequentially as they are listed or choose the topics that are more beneficial to you. The topics are grouped in three different levels. Each topic has a video tutorial along with practice problems (answers are included). If you have any questions, you can message instructors within the course. They will respond as soon as possible.

## **Basics**

**Ideal for:** Students entering MAT115 or MAT142/145

**Topics Covered:** Fractions, decimals, percentages, ratios and proportions, measurement, basic geometry, basic statistics, basic solving

## **Level I**
