

How to Access Brainfuse Tutoring

The GateWay Learning Center offers free remote video tutoring (call us at 602-286-8800 or email us at lctutoring@gatewaycc.edu to jump into a session) for most GateWay courses.

Brainfuse tutoring is available after hours/weekends and for courses for which we may not have a tutor. This is a third-party company we contract with to provide free additional tutoring services to our students.

You can access Brainfuse in your Canvas course.

- Enter your course
- Go all the way down to the drop-down menu on the left (the one with "modules", "assignments", etc.)
- Click "Online Tutoring"
- Click "Launch Brainfuse"
- See screenshots below

If you have any difficulties logging in or don't see your course listed, please call our front desk at 602-286-8800 or email/chat us at lctutoring@gatewaycc.edu.

Please note: Students can have up to 10 total hours of Brainfuse for the semester, and that it is to be used only for GateWay courses. Using it for non GateWay courses will result in suspension or termination of services.
