WRITTEN AND PRESENTED BY

Karin J. Sherrill, RN MSN, CNE, ANEF, FAADN

Karin is a nurse educator who has taught ADN and BSN students at Maricopa Community Colleges and Upper Iowa University for almost 30 years. She teaches third-semester nursing students in the classroom and simulation lab along with facilitating student success courses throughout the curriculum. Karin currently serves on the Maricopa Nursing Testing Committee, the T.I.G.E.R. Informatics Education Committee, and is the president of the Arizona League for Nursing. Karin has consulted for the National League for Nurses Testing Services, National Council State Board of Nursing, and several publishing companies. She is a member of the Arizona and National League for Nursing, the Arizona and American Nurses Association, the National Organization for Associate Degree Nursing, the International Nursing Association for Clinical Simulation & Learning, the Society for Simulation in Healthcare and was founding president for the Arizona Simulation Network. She has a passion for student success, testing practices, and creating an active classroom.
